Active Directory Design, Migration or Upgrades

Active Directory allows organizations to centrally manage users and share information on network resources while acting as the central authority for network security. IT Solutions' Active Directory services can demonstrate how these benefits can enhance and improve your computing environment.

Service Covers:

- Provides the concepts of the Active Directory service
- Map and design the logical and physical structures of Active Directory
- Implement Domain Name Systems (DNS) services
- Upgrade and/or migration plans
- Install Active Directory
- Configure and maintain user accounts and groups
- Publish resources in Active Directory
- Delegate control over Active Directory objects
- Manage user environments by using Group Policy
- Use Group Policy to deploy software
- Manage Active Directory replication
- Manage operations masters

Since 2000 IT Solutions has been a leading technology services company. With deep industry expertise and proven experience in consulting and outsourcing, IT Solutions can mobilize the right people, skills alliances and technologies for your Active Directory Design, Migration & Upgrades.

Why use ITS?

IT Solutions is a leading technology services company. Committed to delivering innovation, IT Solutions collaborates with its clients to help them realize their visions and create tangible value. With deep industry expertise, broad resources and proven experience in consulting and outsourcing, IT Solutions can mobilize the right people, skills, alliances and technologies for your Active Directory. More than 80 percent of our work is with clients whom we've served before.

Our approach is to deliver innovation to clients by leveraging our industry knowledge, service offering expertise and insight into and access to emerging technologies. With this comprehensive approach, we are able to move clients forward in their business, from strategic planning to day-to-day operations. This often includes helping clients identify and enter new markets, increase revenues in existing markets, and deliver their products and services more effectively and efficiently.
